PROJECTS

- ❖ **"Inferno" Game Application** *July '24 - Present*
 - Well-designed, well-implemented Next application.
 - Deployed application's live link, [Inferno](#).
 - TypeScript, Next, Tailwind, React, Framer.
- ❖ **Portfolio Application** *Apr '24 - July '24*
 - Well-designed, well-implemented full stack application.
 - The code utilized to develop the application well-tested, error-free, refactored, documented, and efficient based on Model View Controller.
 - Deployed application's live link, [Portfolio](#).
 - TypeScript, Next, Tailwind, MongoDB, React.
- ❖ **URL Shortener with Login-Signup System** *Feb '24 - Mar '24*
 - Well-designed, well-implemented web application that makes use of DOM and algorithms.
 - The code utilized to develop the Server-Side Rendering application was concise, well-tested, error-free, refactored, documented, and efficient based on MVC.
 - JavaScript, NodeJS, CSS, EJS, API, JWT.
- ❖ **Currency Converter Application** *July '23 - Oct '23*
 - A currency converter application that provides a convenient way for users to quickly and accurately convert between different currencies, which is particularly useful for travelers, investors, and businesses engaged in international transactions.
 - A graphical user interface (GUI) is produced using JavaFX and CSS, and data is obtained through API calls in JSON objects.
 - Java, JavaFX, REST API, CSS, HashMap.

EDUCATION

- ❖ **Delta MERN Development** | Apna College, Certificate *June '24 - Present*
- ❖ **Alpha DSA** | Apna College, Certificate *Dec '23 - June '24*
- ❖ **Computer Engineering** | 7.33 CGPA | CIITM College, Jaipur *Aug '19 - Feb '24*

SKILLS

- ❖ **Programming, TypeScript, JavaScript, React, Next, Node, Tailwind, Express, Java, C++, HTML, CSS.**
- ❖ **MongoDB, MySQL, Linux-OS, Problem Solving, Algorithms, Data Structure**

ACHIEVEMENTS

- ❖ I've solved 350+ programming problems which cover Java, DSA and DP.
